## ABOUT THE ARTIST

Jacek Doroszenko is a Polish audiovisual artist based in Warsaw & Kraków. His artistic activities mainly include multimedia art, music and sound phenomena. The essence of his activity is to treat sonic layer as legitimate material in the field of visual art and to emphasize the value of listening as a practice. In everyday life, most sounds go unnoticed because we do not really listen to them. Listening begins when we become aware of sound and focus on that sense. The artist uses a wide range of processes, including sound installations, field recordings, video and musical score concepts, depending on the context. His practice uses contemporary soundscapes to select and redefine notions of noise and error as desirable factors.

# SOLO CONCERT RIDER
